EDUCATION

B.Tech Computer Science

Indian Institute of Technology (IIT) Bombay, Mumbai, India

Aug 2018 -- May 2022

EXPERIENCE

Software Development Engineer - I

Amazon India, Bangalore, India

July 2022 – Present

- Developed a microservices-based order tracking system, improving latency by 30%.
- Implemented DynamoDB and Redis caching to reduce database queries by 40%.
- Optimized a payment fraud detection model using TensorFlow and scikit-learn, reducing false positives by 20%.
- Utilized Pandas and NumPy for large-scale data manipulation and feature engineering to enhance model accuracy.
- Deployed AI models using MLflow to track experiments and ensure reproducible production pipelines.

Software Engineer Intern

Amazon India, Hyderabad, India

Jan 2022 – June 2022

- Built an automated anomaly detection tool using Python, PyTorch, and AWS, reducing manual checks by 60%.
- Developed an internal debugging dashboard, reducing incident resolution time by 25%.

PROJECTS

Generative AI Resume Parser & Assistant

Tech Stack: Python, LLMs, PyTorch, FastAPI, PostgreSQL

July 2021 – Sep 2021

- Developed a Generative AI resume parser and query assistant using LLMs to achieve 92% extraction accuracy.
- Integrated spaCy and Named Entity Recognition (NER) to automate data extraction, increasing processing speed by 40%.

Scalable URL Shortener

Tech Stack: Spring Boot, AWS Lambda, DynamoDB, React

Oct 2021 – Jan 2022

- Built a distributed URL shortening service, handling 5M+ requests per day.
- Implemented consistent hashing and AWS Lambda integration, reducing infrastructure costs by 25%.

TECHNICAL SKILLS

Languages: Python, Java, SQL, C++, JavaScript, PHP

Frameworks: TensorFlow, PyTorch, scikit-learn, FastAPI, React.js

Databases: PostgreSQL, DynamoDB, MongoDB

Cloud Services: AWS, Lambda, S3, EC2

Developer Tools: Git, Docker, Kubernetes, MLflow

ACHIEVEMENTS

- Secured Rank 200 in Google Kick Start coding competition among 90,000+ participants.
- Won 1st place in Amazon SDE Hackathon 2021 for building a real-time fraud detection system.
- Published 3 research papers on distributed computing and ML in IEEE conferences.
- Received Best Intern Award at Amazon for developing an automation tool reducing manual work by 60%.
